
Committee of Presidents of Statistical Societies

Charge to the Committee:

- To make recommendations concerning criteria by which COPSS should consider offering a new award (e.g. an award in the name of a statistician, a “Nobel Prize” kind of award for lifetime achievement or a significant accomplishment, and so on);
- To consider specific requests for an award in an individual’s name that may come to the Committee;
- To periodically evaluate current COPSS awards to determine whether the frequency and award amounts need to be changed.
