

COPSS 2010 Awards

The Committee of Presidents of Statistical Societies (COPSS) Awards are jointly sponsored by the American Statistical Association, the Institute of Mathematical Statistics, the International Biometric Society ENAR, the International Biometric Society WNAR, and the Statistical Society of Canada. They are: the **R.A. Fisher Lectureship**; the **Florence Nightingale David Award**; the **Elizabeth L. Scott Award**; the **George W. Snedecor Award**; and the **Presidents' Award**. Each award consists of a plaque, a citation, and a cash honorarium. Additional information for all the awards and a list of past COPSS awards recipients can be found at the COPSS web site: <http://www.niss.org/copss>. A list of COPSS members and current committee members is also available at the COPSS website.

2010 Nominations Call

All COPSS awards are open to all regardless of age, race, sexual orientation, nationality or citizenship except the F.N. David Award which is restricted to only female statisticians and the Presidents' award which is awarded to a younger (age < 41 years) statistician. Nominees must be living at the time of their nominations and a prior nomination does not exclude a nominee from consideration in subsequent years. Nominations may be made by members of any of the COPSS affiliated organizations. Members of COPSS are not eligible for COPSS awards during their terms of service.

The call for nominations for COPSS 2010 awards was announced by the COPSS Chair Jessica Utts at the 2009 COPSS Award ceremony at the Joint Statistical Meetings.

The **Presidents' Award** is presented annually to a young member of one of the participating societies of COPSS. The award is presented in recognition of outstanding contributions to the statistics profession. It is typically granted to an individual who has not yet reached his or her 41st birthday during the calendar year of the award. In the special case of an individual who has received his or her statistically related terminal degree less than 12 years prior to the nomination deadline, a nominee will be eligible who has not yet reached his or her 46th birthday during the calendar year of the award. The award was established in 1976. Members of the Award Committee are not eligible to receive the award during their term of service. Eligible nominations should include a current vitae, nominee's date of birth, a nomination letter (up to 3 pages), and up to 5 supporting letters. Nominations should be sent by **January 15, 2010** by email in PDF format to:

Professor Harry Joe

Department of Statistics
#333-6356 Agricultural Road
University of British Columbia
Vancouver, BC, Canada V6T 1Z2
harry@stat.ubc.ca

The **Elizabeth L. Scott Award** is presented biennially (even years) to recognize a statistician who has fostered opportunities in statistics for women. It honors the lifelong efforts of its namesake, a statistician and astronomer, who made exceptional theoretical and applied statistics contributions to research, was president of the Institute of Mathematical Statistics (IMS) and the Bernoulli Society, received numerous honors and awards, and enjoyed a long, distinguished, career as a professor at the University of California at Berkeley. The award recognizes excellence in: developing programs to encourage women to seek careers in statistics; successfully mentoring women students or new researchers; working to identify gender-based inequities in employment; and serving as a role model to women. It was established in 1992. Members of the Award Committee are not eligible to receive the award during their term of service. Eligible nominations should include a nomination letter, letters of support, curriculum vitae, and other appropriate documentation as requested by the Award Committee. Nominations should be sent by **January 15, 2010** by email in PDF format to:

Professor Michael R. Kosorok

Chair, Department of Biostatistics
University of North Carolina at Chapel Hill
3101 McGavran-Greenberg Hall
Campus Box 7420
Chapel Hill, NC 27599-7420, USA
kosorok@unc.edu

The **Fisher Lectureship and Award**, awarded annually, was established in 1963 by COPSS to honor the outstanding contributions of the late Sir Ronald Aylmer Fisher, and those of a current statistician, on aspects of statistics and probability that closely relate to the scientific collection and interpretation of data. The award exists to recognize the importance of statistical methods for scientific investigations. The Fisher Lecture is delivered at the JSM in the year of the award and is generally about an hour long. Members of the Award Committee are not eligible to receive the award during their term of service. Eligible nominations should be sent by **December 15, 2009** [by email in PDF format](#) to:

Professor Hal Stern

Dept of Statistics
2019 Bren Hall
University of California
Irvine, CA 92697-1250, USA
